

The Mekong Delta 2017 recruitment started!

=Let's learn Participatory Action-Oriented Training in the Mekong Delta =

Recruitment period: From 7 April (Fri.) to 15 July (Sat.)

- **PAOT is expanding in the world**

Participatory Action-Oriented Training (PAOT) is well known as useful tools of occupational safety and health. International Labor Organization (ILO) developed WISE (Work Improvement in Small Enterprises) Program in 1980' s and WIND (Work Improvement in Neighbourhood Development) program for farmers was developed in the Mekong Delta in 1990's and it expanded more than 20 countries in the world.

- **We learn PAOT in the Mekong Delta**

Nowadays PAOT is expanding into many fields such as informal sectors, care workers, medical workers, construction site and ships.

We think that the Mekong Delta program also contribute in achieving this result because the Mekong Delta Program gave an opportunity to learn PAOT methodology to the people who are interested in PAOT.

- **The theme of this year is WISE for healthcare**

This year, we will conduct the WISE training for healthcare workers. WISE is the standard program of PAOT and we hope that it could be to create new ideas and activities in PAOT. We sincerely welcome the participation of many friends to "Mekong Delta 2017"!!
